OrganoClick Appointed As The Most Promising Swedish Startup Company 2008

Sweden, 11 May 2008 – OrganoClick has been appointed as the most promising Swedish start-up company 2008. The competition I&T Award took place at the fair Innovation & Technology in Kista Science Tower in Stockholm. OrganoClick won, except the honour, SEK 150 000.

The fair is organized by Swedish VC companies STING and KTH Innovation and the jury which selects the winner is composed of experienced venture capitalists and entrepreneurs.

The jury's announcement was:

“The entrepreneurs have in an exemplary way commercialized unique Swedish research results. The company has by innovative customer collaborations identified applications with great customer values and shown profitability from start. The company has potential to revolutionize global markets with products that lower the impact on the environment. The winner has high potential to become a new world leading Swedish company.”
